Oncological Institute  
“Prof. Dr. I. Chiricuta”  
Republicii Street 36  
4000415 Cluj-Napoca  
Romania

**4.-6. october 2007**

Oncological Institute  
“Prof. Dr. I. Chiricuta”  
Cluj-Napoca  
Romania

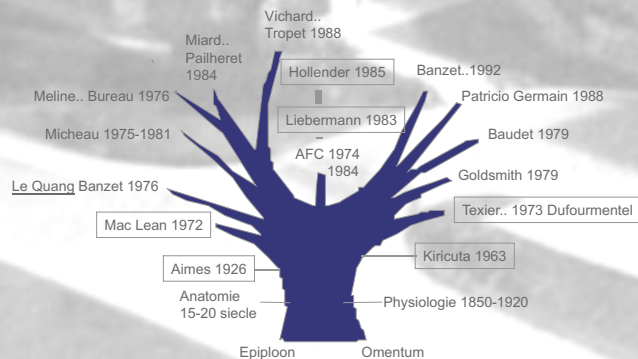

## Invitation and Call for papers

It was the work of Professor Kiricuta who started in 1954 to treat irradiation side effects of the chest wall and abdomen with the pedicled omentum.

In more than half of the century since the foundation of the surgery of the greater omentum many new developments happend.

To celebrate the contribution of Professor Kiricuta in this field we organize this symposium at the Oncological Institute of Cluj-Napoca (Romania) the place where he worked for more than 30 years.

It will be a great honour and pleasure to have as guests many of the researcher and clinicians who contributed with new developments and knowledge on the anatomy, biology, immunology and clinical experience in the general-, reconstructive-, neuro- and oncological- surgery and their role in radiation oncology.

*Prof. Dr. Valentin Popescu  
Conf. Dr. Alexandru Irimie  
Prof. Dr. Ion Christian Kiricuta*

## Preliminary Program / Sessions:

1. Historical Aspects of Omentoplasty
2. Gross Anatomy and Ultrastructure
3. Biology, Immunology and Pathology
4. Reconstructive and General Surgery using Omentoplasty
5. Minimal Invasive Techniques
6. Omentoplasty in Neurosurgery
7. The Role of the Omentum in Radiation Oncology
8. Selected Papers
9. Posters

**Registration and Abstract submission only online:**

**[www.new-radiotherapy-target-volume.de](http://www.new-radiotherapy-target-volume.de)**

## Registration fee:

Early registration **250 EU**  
Late registration or at site  
(after 1-st of August 2007) **350 EU**  
Included are: reception coctail,  
symposium dinner, proceeding book

Bank: Kreissparkasse Limburg  
Account number:  
DE25 5115 0018 0001 0041 59
